

# Introduction to Python: JupyterHub

## Access

R'Course, CS190, Winter 2018

Written by John Pham ([jpham035@ucr.edu](mailto:jpham035@ucr.edu))

---

You will need a computer science account to access your JupyterHub. If you do not have one, you can create one by going [here](#) (you must be on the UCR network either UCRWPA or through the VPN).

Once your account is setup, you can access JupyterHub account by going to [hub.cs.ucr.edu](http://hub.cs.ucr.edu) or `<username>.hub.cs.ucr.edu`. Again, you must be on the UCR network to access the JupyterHub.

If you would like to access the JupyterHub off UCR's network, you can setup a VPN. Instructions to do so can be found [here](#).
